BLOCKCHAIN OPPORTUNITIES SUMMIT CANADA

Participants:

Support by:
One way or another Blockchain is in the news almost everyday, well, its generally Crypto Currencies that make the news but there is lot of buzz around Blockchain. It seems that Blockchain will be the solution to all the problems every business is facing. But how much of it is hype and how much it is fact? To answer this very question, we are organizing Blockchain Opportunities Summit Canada on April 10-11 2018 in Toronto.

As the title suggests that the focus of the summit is to provide better understanding of various economic sectors that core Blockchain technologies can help transform and what does that transformation look like. At this summit you will hear from experts from:

• Banking and Finance
• Public Sector
• Payments
• Legal
• Healthcare
• Manufacturing

At this summit you will be able to separate myth from reality and get better understanding of how Blockchain can be used in various economic sectors, what is its potential and how it will affect your work.

Along with Blockchain Summit we are also hosting a technical certification workshop which will be held by The Blockchain Hub of York University and this one day, exhaustive workshop will count towards your full Blockchain certification programme from York University.

This is a must attend event for anyone trying to make sense of Blockchain technology and its benefits and challenges it presents.

I look forward to welcoming you to the summit on April 10th in Toronto.

Yours Sincerely,

Hifazat “Faz” Ahmad. MBA
Managing Director
IoT Events

PS: Special discounts are available for Banks, Financial Institutions, Government and Energy Companies. Early bird discounts are also available.

Who you will meet:
• Senior Business Professionals
• Blockchain Developers
• Entrepreneurs
• Policy Makers
• Solution providers

Reasons to attend:

- The global Blockchain market was valued at $216.1 million in 2016, and is projected to reach $9.6 billion by 2024.
- The private Blockchain segment led the global Blockchain market by holding nearly 70% of the total market share.
- North American blockchain market held a revenue share of more than 40% of the global market in 2016.
- Blockchain Industry is expected to grow by 61% CAGR by 2021
- Blockchain technologies can enhance: transparency, immutability, reduce costs, faster transaction.
- The Government of Canada is running a competition to establish a supercluster. Toronto and Waterloo submitted a proposal that could see a large portion of $950 million invested in blockchain technologies.

Who should attend:

- Developers
- Entrepreneurs
- Tech professionals from:
  - Banks, insurance companies, finance businesses
- Municipal professionals and policy makers
- Agri-farming professionals
- Lawyers
- Industrial, Energy and Mining Professionals

What people said about our conferences

“It’s been a fantastic conference. So much has been really enlightening, so we are going to take this information back and utilize it. Well organized, informative and good mix of educational, public and private sector speakers.” - Frank Campion, Mayor, City of Welland

“I thoroughly enjoyed your IoT Intelligent Cities Summit. The speakers I heard on November 8th were excellent. The event exceeded my expectations and I learned a lot. The Intelligent Cities Summit is an excellent way to find out what municipalities are doing to harness and benefit from the ongoing changes in technology. I would recommend this Summit to anyone from the public sector, and to anyone in the private sector who interacts with government.” - Brian Bridgeman, MCIP, RPP, Commissioner of Planning and Economic Development, The Regional Municipality of Durham

Venue: The Globe & Mail Centre – 351 King Street East - Toronto, ON M5A 0N1
Website: https://www.globeandmailcentre.com/

Agenda:

12:00 NOON
Registration and Lunch

12:50 PM
Opening Remarks from the Chairman
Namir Anani, President & CEO, ICTC

1:00 PM
The World of Blockchain - Opportunities and Challenges
Challenges of Gaining User Adoption of Blockchain Technologies in Novel and Unproven Applications
- Blockchain for Enterprise
- Understanding Blockchain Technologies & Markets
Dr. Andrew Maxwell, Director BEST, York University

1:30 PM
The 4th Industrial Revolution: The Blockchain of Circular BIM Things
- Applications of Blockchain to the built environment
- How Blockchain has the potential (and already is starting) to transform the industry
Justin Trevan, Associate Principal, Arup

2:00 PM
Blockchain Health – What it Means and How it can Improve Healthcare Sector in Canada
David Wiljer, Executive Director, University Health Network

2:30 PM
Presentation
Dr. Kim Bates, Associate Professor, Ryerson University

3:00 PM
Beyond Blockchain - Why Most Crypto Platforms Can Never Be Practical For Real-World Applications
- 100 Billion reasons why you shouldn’t use a blockchain to build a DLT strategy
Terry Shane, CEO, Refined Data Solutions

3:30 PM
Afternoon Networking Break

4:00 PM
Blockchain Enabled Privacy Auditing
- Securing Blockchain
- Future of Digital Rights Protection
- Blockchain approach for provable security and privacy
Reza Samavi, PhD, PEng Assistant Professor, MSc eHealth Program Coordinator Department of Computing and Software, McMaster University

4:30 PM
Blockchain Opportunities in Public Sector
- Improving municipal operations through Blockchain
- Preparing public sector infrastructure for Blockchain technologies
Marc Lijour, Solutions Delivery, ConsenSys & Co-Founder, ColliderX
Brian Nammari, MBA | PMP | CMS, Ryerson University
Bernie Doyle, President, Government Blockchain Association-Toronto Chapter. Technical Advisor, Revive Therapeutics

5:00 PM
Panel: Blockchain – Why not yet?
- Experiments in Blockchain Applications
- Regulating the Blockchain Revolution
- Blockchain beyond Bitcoin and ICOs
Aidan Hyman, Co-Founder & CEO, BlockchainHub/ co-founder, ChainSafe
Namir Anani, President & CEO, ICTC
Dr. Andrew Maxwell, Director BEST, York University
Aaron Grinhaus, Lawyer, Grinhaus Law Firm

5:30 PM
Blockchain Financial World – Boon or Bane?
- How is Blockchain disrupting financial industry
- The challenges for the banking industry
Neeraj S Srivastava, Founder/CTO, DLT Labs
Vivek Chandra, Retail Banking and Payment Expert
Paul Liu, President, Fast Access Blockchain

6:00 PM
Panel: How can developers make the most of the Blockchain opportunity?
- Building enterprise Ethereum applications
Speakers:
Omid Sadeghi, Managing Director, Blockchain Hub at York University
Mohamed El Kandri, Strategic Initiatives Lead, The BlockchainHub at York University
Charles St. Louis, Co-Founder, HealthBlock Identity
Moderator: Othalia Doe-Bruce, Community Engagement & External Relationship Lead, Blockchain Hub at York University

6:30 PM
Developing Blockchain Applications
- Understanding how blockchain applications are built
- Blockchain as a service (Baas) – Is it possible?
Aidan Hyman, Co-Founder & CEO, BlockchainHub/ co-founder, ChainSafe

7:00 PM
Close of the conference
TECHNICAL WORKSHOP

This workshop will focus on the hands-on programming of an Ethereum Blockchain. Participants will code their own smart contracts as well as building an ICO.

Venue: York University at Bergeron Centre

9:00 AM
Intro to solidity

11:00 AM
Intro to testRPC and Mist browser

12:00 NOON
Lunch Break

12:30 PM
Solidity by example
Raw transaction on testRPC, helloWorld contract on testRPC, escrow contract on Mist browser, coinFlip contract on Mist browser

2:30 PM
ERC 20 standard intro

3:00 PM
Build an ICO
ERC20 token, and ICO infrastructure

5:00 PM
End of the Technical Workshop

With this Workshop, assistants will be able to access the Blockchain Certificate by Blockchain Hub (York University) after completing three more days with them.

This was the best conference of the year. It was fantastic. The Internet of Things is definitely making healthcare safer, more affordable, and more accessible for everyone, so we are glad to be part of it.

Dr. Thom Tyson
CEO
Appletree Medical Group

Informative, thoughtful and well executed. Overall a thought provoking pleasure!

Allan Gartner
CEO Tokio Smoke

I found it to be both insightfull and well organized. The speakers were excellent and great networking exchange

Mark McDonald
Executive Consultant Former CIO City of Vancouver
Limited sponsorship opportunities available at the summit. Companies of all sizes sponsor IoT Events’ conferences to reach decision makers and potential customers. We work diligently to ensure our sponsors receive full value for their investment. To achieve that we ensure that over 60% of our audience are non vendors or consultants and come from potential customers.

We have high rate of sponsorship retention indicating good ROI. We have had sponsors start with one event and expand to do four or five events a year with us.

If you are a tech company or an organization seeking blockchain developers, please gsend an email to sales@iotevents.ca or call at 416-597-5751 ext. 222 to chat about sponsorship opportunities and to request a sponsorship prospectus.
Your registration will not be confirmed until payment is received and may be subject to cancellation.

Payment is due in full at the time of registration and includes lunches, refreshments and conference materials.

CANCELLATION, POSTPONEMENT AND SUBSTITUTION POLICY
You may substitute delegates at any time by providing reasonable advance notice to IoT Events.

For any cancellations received in writing between forty five (45) and fifteen (15) days prior to the conference, you will receive a 50% credit to be used at another IoT Events conference which must occur within one year from the date of issuance of such credit. For any cancellations received in writing more than forty five (45) days prior to the conference, you will receive a 90% credit to be used at another IoT Events conference which must occur within one year from the date of issuance of such credit. An administration fee of 10% of the contract fee will be retained by IoT Events for all permitted cancellations. No credit will be issued for any cancellations occurring within fifteen (15) days inclusive of the conference dates.

In the event that the conference is cancelled, rescheduled or postponed due to a fortuitous event, Act of God, unforeseen occurrence or any other event that renders performance of this conference impracticable, illegal or impossible. For purposes of this clause, a fortuitous event shall include, but not be limited to: war, fire, labor strike, extreme weather or other emergency.

Please note that while speakers and topics were confirmed at the time of publishing, circumstances beyond the control of the organizers may necessitate substitutions, alterations or cancellations of the speakers and/or topics. As such, the IoT Events reserves the right to alter or modify the advertised speakers and/or topics if necessary without any liability to you whatsoever. Any substitutions or alterations will be updated on our web page as soon as possible.

DISCOUNTS
All ‘Early Bird’ Discounts must require payment at time of registration and before the cut-off date in order to receive any discount.

Any discounts offered whether by the IoT Events (including team discounts) must also require payment at the time of registration.

All discount offers cannot be combined with any other offer.
