Design your business critical software to evolve as needed - or accept the risk
via IT World Canada
By Dave O’Leary I.S.P., ITCP

In today’s rapidly changing world of disruptive digital innovation, how are you keeping your software current? Your answer to this question will have a real impact on your company and its ongoing success.

In a 2014 Keynote to the Engineering of Complex Computer Systems (ICECCS) 19th International Conference, Professor Mike Hinchey, director of the Irish Software Research Centre, Lero, stated "software can be considered to be critical, due to the business or other functionality which it supports. Upgrades or changes to such software are expensive and risky, primarily because the software has not been designed and built for ease of change."

New Discounted Insurance Benefits for CIPS Members

For over 25 years, CIPS and HDF Insurance have shared the common goal of providing an insurance program that is a true benefit to its members. 2016 brings with it, insurance solutions designed for IT professionals with larger discounts than ever before.

CIPS members will now realize an unprecedented 25% discount on full coverage Disability (Income Replacement) Insurance, tailored to the IT professional. This discount will remain with your policy for as long as you keep it and full benefits are payable, should you become unable to work due to an illness or injury. It is now very affordable to maintain your family’s lifestyle should a disability keep you from earning an income.

Other member benefits include discounted Home & Auto Insurance (discounts vary depending on your province of residence) as well as a Professional Liability Insurance, created with your specific risks and needs in mind. Securing and paying for only the coverage that you require will save you money by avoiding protection irrelevant to your industry.

HDF Insurance has been specializing in the IT industry for over a quarter century. We see how CIPS has changed over the years and we have changed with it. Whether for your professional and personal
insurance needs, why not work with a company that can do it all? At HDF Insurance, we work for you!

**The risks of playing Pokémon Go: How to be safe online and offline**

via IT World Canada

By Yogi Schulz, I.S.P., ITCP

Pokémon Go has won over the world, but has it put us more at risk as a result?

The augmented reality game is entertaining millions of its fans and capturing lots of media attention. But fans are much more focused on play and fun than on the risks they are accepting. Security vendor RSA shared some tips around the security of Pokémon Go that I'll share here.

My own advice to Pokémon Go users? Look up from your screen for one moment and consider if these risks should influence your behavior.

The race toward digital transformation is getting faster every day. The forces of cloud, big data, mobility and social are resulting in a fundamental change in how next-generation applications will be developed and deployed. To get ahead of the competition, organizations need to find new ways to delight their customers by being more agile in the delivery of their services. They need to focus on the performance of their applications, and not on the nuts and bolts of their infrastructure. Read this white paper to learn how an open source platform can provide a reliable, scalable and pay-as-you-go solution to support your applications and help you win the race.
