55 years of CIPS!
CIPS
In September 1958 a dedicated group of data processors (DP) got together to talk about common concerns of DP workers. That conference demonstrated to participants the value of sharing ideas, networking with fellow professionals, and learning about coming changes in the technology, practices, and management of information systems.

I.T. Professionalism Week 2013 Prize Giveaway!
CIPS
Comment on the discussion below and you'll be entered into a draw to win a $50 Future Shop Gift Card or some CIPS Swag! You have seen the furor over healthcare.gov in the US. With the increasing complexity of all systems (government, business, consumer) and our total reliance on ICT, is professionalism the key to bring order and reliability to chaos?

Techcellence Award for IT Professionalism: Submit a nomination!
CIPS
Do you know of an individual who recognizes the importance of promoting ethical and professional behavior in the information technology sector and stands as an example of this in their role? If so, then we invite you to submit a nomination for the Techcellence Award for IT Professionalism sponsored by CIPS Ontario.

Help enhance the IT skills of your non-IT staff
CIPS
Competing in today's global economy requires a company to utilize technology in order to boost productivity. Two key elements for a company to realize the productivity advantage are a workforce that embraces the adoption of technology, and a workforce that can effectively use the technology.

CIPS Women in Technology Event (Edmonton, Feb. 21)
CIPS
The CIPS Women in IT conference is an annual Edmonton event focused at Grade 9 girls with the
purpose of changing their perceptions about careers in IT. The conference begins with a "Welcome Address" where the young women will develop an understanding of the current climate in the IT industry and the benefits of stronger female representation in this exciting field.

CIPS INTERVIEWS: Brian Cameron Founding President FEAPO and Nick Malik Principle Microsoft EA

Dr. Brian Cameron is Executive Director of the Center for Enterprise Architecture in the College of Information Sciences and Technology at the Pennsylvania State University. Nick Malik is an internationally recognized expert, speaker, blogger and innovator in Enterprise Architecture and Business Architecture.

Featured Whitepaper: Why convergence? Why now?

This white paper, authored by ESG, delves into nature of converged storage, what it is, the implicit value it provides and, how, ultimately, it represents a new integrated approach to IT infrastructure overall, and to storage in particular.

Benefits of deploying Windows Server 2012 R2 core installation

Deploying the server core installation of Windows Server 2012 R2 seems to strike fear in the hearts of IT Professionals even at just the mention of the deployment tactic. Common excuses surrounding the deployment of core include the following.

Students encouraged to enter mobile app contest for 2014 CES

For 2014, CES will introduce the Student App-preneur Scholarship Awards to honor outstanding achievements in app creation by high school, college and graduate school students. In October I wrote about the upcoming CES in Las Vegas, where I will attend as an industry executive invited by the U.S. embassy and as a member of the official press.
Congrats to the University of Victoria Computer Science students for their participation in the November ACM International Programming contest!

CIPS

CIPS BC recently supported four teams of University of Victoria Computer Science students in participating in the ACM International Programming contest, held on Nov. 2nd at University of British Columbia. More than 112 teams took part overall in the event. Our congratulations to the students who worked very hard to be ready for the competition.

Review: Microsoft's Surface Pro 2 at work

IT World Canada

The packaging is as slick as version 1 and setup was a breeze. The simple booklet included in the package gave a couple of helpful hints such as "have your MS account and wireless security information on hand then start up the Pro 2 and follow the prompts." It was truly that easy and it took only 10 minutes to be ready to go.

**Canadian CIOs reveal 2014 hiring plans**

Canada Newswire

The just-released Robert Half Technology IT Hiring Forecast and Local Trend Report for Canada shows that 12 per cent of Canadian chief information officers (CIOs) surveyed recently plan to expand their IT teams in the first half of 2014. This is up four points as compared to projections from the previous six-month period.
